**September 2, 2007 – Sunday**  
**Carrier**

Report by and Event Director: Terry Kirby

And then there was one ...

Having deleted the President's Day and the Fall Finale carrier events from the DMAA schedule, the Golden Boat was to be awarded according to the DASH (Father's Day) contest and this one held on Labor Day weekend. For whatever reason, Navy Carrier didn't happen in June so it became an all or nothing in September.

CD Dale Gleason got things off on the right foot by enlisting the help of the stunt flyers to setup the deck and we were ready for the first flight shortly after 09:00. Bill Bischoff launched his .15 Sniper for the first flight but failed to top off the tank and ran out of fuel on his landing approach. He put in a second flight later and clinched first with a modest 239.70. I took off next with my .15 Moper (BB designed Sniper with MO1 styling!) and managed to get it back on the deck for a complete flight with a 206.8 and second place. This would prove to be my only flight, as I settled in to the task of running the event. Melvin Schuette was down from Kansas and his .15 XF2C was slower in both high speed (bad) and in low speed (good). This gave him a score just .6 behind me for third. Dave Ek put his twin F7F Tigercat up for the only Sportsman Profile entry but thrilled even the stunt boys with his A7 Corsair II. The appearance of this cool looking ship more than makes up for the lack of performance. Too bad there's no style points! MO-1 ships filled out the entries in AMA Profile, Class I and II. Dale Gleason believing he was carrying too much extra fuel chose to short fill his CLII ... and flamed out on his landing approach. Bill took first in every event insuring the Top Gun trophy stayed with him for another year. Looks as if it will be retired there permanently. Until next year, that's the carrier scene from Big D.

Terry Kirby
