Balloon Bust

August 30, 2008

Place	Pilot	AMA Number	Airplane	Score	Time
1.	John Cox	634330	Banshee	55	2:20
2.	John Ashford	993	Flite Streak	50	2:47
3.	Dave Ek	17358	Bi-Slob	30	1:50
4.	Steve Wolf	865211	Mustunt	5	5:00

My, how times have changed.... Back in the day you could count on the Ringmasters

to be right up at the top like you could depend on the Sun rising in the East. Mom, apple pie, and Ringmasters. Why, I even remember a clean sweep - Ringmasters first, second and third. Laughter all around. Heady days, those...Matt Kania was sure smiling down on us then....

Kids today...ha!!...don't get me started...a Banshee, a Flite Streak....a Flite Streak almost won! An ***ARF*** Flite Streak!!! What's up with that?

Balloon bust was quite a challenge, with the East wind swirling over the railroad tracks. Balloons wouldn't stay still, planes bouncing all over the place... John Cox's Banshee handled the turbulence quite well to break 3 balloons and take first prize. John Ashford's lighter Flite Streak was more

difficult to fly in the wind, but he also broke 3 balloons for a very close second place. Dave Ek's Bi-Slob would seem to be a good choice for this event, but he got a too rich engine run at first and then knocked 3 of the balloons loose and lost the chance to score those as hits. Steve Wolf broke one balloon, but killed the engine on a low pass and was unable to get it restarted.

Event Directors were Emile Imberman and David Russum. Special thanks to our scribe and tabulator Michael Chambers, who started first grade the following Monday. Great Job Michael!!!!
